The Democrats and Populists are having a hard time getting together on a fusion deal. The longer they delay the matter the wider apart they get. The conference committee of the two parties held a meetcommittee of the two parties held a meeting yesterday for the purpose of putting up a combination ticket, but they did not succeed. Some of the Democratis wanted to get up a ticket and place a few Republicans on it. They wanted to call it a citizens' ticket, and thought that by putting some Republicans on it that it would draw some Republican votes. Other members of the conference committee, however, were opposed to such a scheme. They argued that the Republicans were more united this year than ever before and that they would be unable to find any Republicans to go on their ticket. This new scheme rather upset the plans of the majirity of the committee and they decided to take another adjournment. The next meeting will be held Thursday afternoon.

Board of Education Meeting.

Board of Education Meeting.

The board of education held a special meeting Friday night, when a settlement was made with the Second Baptist church, colored, regarding the property purchased from the school board by the church some years ago. Only a small part of the purchase money has been paid, and the church has failed to pay special taxes assessed against the property. The time for the payment of the taxes has expired, but a short delay in the sale will allow the redemption of the property.

The church has raised \$100, which will be paid on the taxes. The remaining \$108 of taxes due must be paid by the church by April 1, 1895. In case this agreement is compiled with the church will be allowed to retain the property by paying the balance due the school board. The janiors were ordered to begin work to-morrow cleaning up the school buildings preparatory to the opening of school, on Monday, September 16. A petition from residents of the North side, asking for a school for small children to be opened north of the Safita Fe tracks was received and laid on the table for further consideration and investigation.
